Remarks

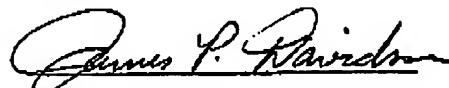

Claims 35 and 36 stand objected to under 37 C.F.R. §1.75(a) for the failure to provide antecedent basis. In particular, the limitation "said longitudinal centerline axis" located at lines 19-20 of claim 35 and also at lines 18-19 of claim 36 apparently refers to engine axis 12, but this axis was not previously introduced into the claims. Applicants have amended such claims to properly provide antecedent basis and it is believed that such objection is now moot.

Claims 1-29 stand allowed and claims 35 and 36 will be allowed if amended to overcome the foregoing objection.

Claims 30-34 of the non-elected method claim are hereby cancelled, without prejudice.

In light of the foregoing amendments, Applicants submit that the pending claims (claims 1-29, 35 and 36) are in condition for allowance and the same is respectfully requested. Should the Examiner have any questions regarding this matter, he is encouraged to contact the undersigned at (513) 505-0992.

Respectfully submitted,

James P. Davidson, Esq.
